LOUISVILLE, Ky., Aug. 11, 2022 (GLOBE NEWSWIRE) -- LogicMark, Inc. (Nasdaq: LGMK), a provider of personal emergency response systems (PERS), health communications devices, and technology for the growing care economy, announces financial and operating results for the second quarter ended June 30, 2022.

Highlights Include:

LogicMark continues its exciting transformation into a technology company focused on building solutions for the new care economy, driven by our proprietary remote care and activity monitoring solutions that leverage our core business and position us to deliver new products and monitored services. In July, we officially launched our Direct-to-Consumer sales channel through our new e-commerce website.

"I'm very pleased to report that we continue to deliver on promises we've made to shareholders to improve our financial condition and corporate governance while, managing costs, and expanding our intellectual property portfolio. We are on track with expanding our product and service offerings which we expect will diversify revenue generation and continue to drive steady growth. We hope this will increase our margins and further position us as a leader in the new care economy. We look forward to providing further updates on the exciting developments in the coming quarters," concluded Ms. Simmons.

Q2 2022 Financial Results

Revenue for the second quarter ended June 30, 2022, was \$3.4 million, up 21% over the year-ago period. Revenue growth was driven by improved sales to VA hospitals and clinics, and from replacement sales of 4G Guardian Alert 911 Plus devices to customers holding the older version being impacted by 3G sunsetting. The impact of this replacement program was largely completed by the end of the second quarter.

Gross profit for the second quarter increased 17% over the year-ago period. The increase in gross profit was primarily driven by higher sales. Gross margin for the second quarter was 59% versus 61% in the second quarter of 2021. The decline was due to a shift in product mix toward the lower margin Guardian Alert 911 Plus units as well as higher shipping costs.

Direct operating costs in the second quarter were \$337,000, increasing 32% over the year-ago period, driven by the Company's business decision to provide free replacements for 3G sunsetting units still under warranty. Selling and marketing increased to \$275,000, up \$185,000 from the second quarter of 2021 as a result of higher sales commissions, recruiting expense for additional sales personnel and increased spending on investor relations, public relations and social media support. Research and development expenses declined to \$205,000 versus \$279,000 in the prior year. General and administrative expenses were \$2.1 million in the second quarter of 2022, up from \$1.1 million in the year-ago period. The increase in general and administrative was due to adding resources to support revenue growth, new product development and finance and administrative infrastructure related expenses.

Net loss applicable to Common shareholders in the second quarter was \$1.2 million, or \$0.13 per share versus a net loss of \$1.2 million or \$0.22 per share in the prior-year period.

Cash balance as of June 30, 2022 was \$11.1 million versus \$12.0 million at December 31, 2021.
