The interview with Pereira focuses on the Company's Wocket® technology. Wocket is the smartest wallet you'll ever own. Designed to protect your identity and replace your old wallet, simply swipe and save your cards into Wocket once and they are immediately secured with pin and biometric voice print technology. Without ever needing a smartphone, you can choose a card from the touch screen and Wocket programs its single, smart card (Wocket Card) to match your selection. From there, you just swipe as you normally would virtually anywhere that credit cards are accepted today.

All your credit, debit, loyalty, gift, ID, membership, insurance, medical information, passwords, and other information can be protected on Wocket®.
