Forward-Looking Statements

Exhibit 99.1 contains, and may implicate, forward-looking statements regarding the Company, and includes cautionary statements identifying important factors that could cause actual results to differ materially from those anticipated.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

99.1 [Presentation for the 11th Annual LD Micro Main Event 2018 Conference, presented on December 5, 2018.](#)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: December 7, 2018

NXT-ID, INC.

By: /s/ Gino M. Pereira

Name: Gino M. Pereira

Title: Chief Executive Officer

-- Confidential Draft --

Gino Pereira

Chief Executive Officer
NXT-ID Inc.

Cautionary Note Regarding Forward Looking Statements

Certain matters discussed in this presentation and management's statements related thereto contain forward-looking statements that involve material risks to and uncertainties in our business that may cause actual results to differ materially from those anticipated by the statements made herein. Such risks and uncertainties include, among other things, our ability to establish and maintain the proprietary nature of our technology through the patent process, as well as our ability to possibly license from others patents and patent applications and maintain such licenses necessary to develop products; the availability of financing; our ability to implement our long range business plan for various applications of our technology; our ability to enter into agreements with any marketing and/or distribution partners; the impact of competition; the obtaining and maintenance of any necessary regulatory clearances applicable to applications of our technology; and management of growth and other risks and uncertainties that may be detailed from time to time in our reports filed with the Securities and Exchange Commission. This presentation does not purport to be an analysis of the Company's financial position.

This presentation does not constitute an offer to sell or a solicitation of an offer to buy securities nor does it constitute an offer or solicitation in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. Any such offer may only be made pursuant to a registration statement or pursuant to any exemption from registration, if available. No general solicitation whatsoever is made or intended hereby.

(NASDAQ: NXTD)

NXT-ID creates industry-leading technologies, with a focus on healthcare, that are at the center of the rapidly expanding Internet of Things. NXT-ID includes emerging business opportunities with significant high-growth potential as well as revenue producing lines of business with clear paths to expansion.

With technologies that validate and connect users to devices and devices to ecosystems, NXT-ID seeks to play a central role in the application of healthcare within the Internet of Things.

Revenue Opportunities

Multi-layered and Recurring Revenue Opportunities

**Device

Consumers
Retail PERS sales
Monetization of data analytics

**Value-Added
Service Providers**
Monthly-based fees
Monetization of data analytics

LogicMark is the leading manufacturer and distributor of non-monitored and monitored personal emergency response systems ("PERS") sold through dealers/distributors and with the United States Department of Veterans Affairs

Personal Emergency Response (PERS)

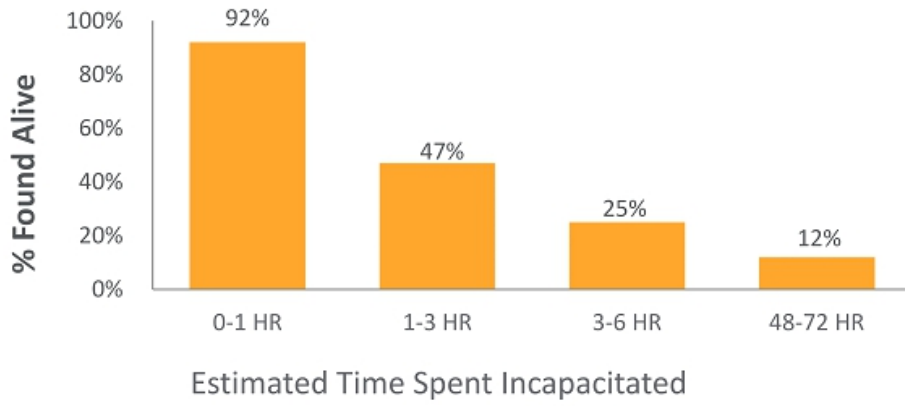

- LogicMark is a wholly-owned subsidiary of NXT-ID and is a dominate player in non-monitored personal emergency response systems (PERS) within the healthcare industry and is the leading provider of PERS devices to the U.S. Department of Veterans Affairs (VA) serving veterans who suffer from chronic conditions that often require emergency assistance.
- LogicMark serves a market that enables two-way communication, medical device connectivity and patient data tracking of key vitals through sensors, biometrics, and security to make home health care for chronic medical conditions, including the opportunity for making “aging in place,” a reality.
- Remote healthcare, which includes health monitoring and management using IoT and cloud-based processing, continues to be a growth area for LogicMark. We see the long-term trend toward more security and safety devices as well as panic buttons as an ongoing and massive shift that is being driven by consumers seeking more remote activities, employers looking to provide safer work environments and greater levels of security.

Adult Fall Statistics

Rapid Medical Response is Critical

\$54.9 Billion in potential financial costs related to adult falls each year by 2020

LogicMark operates in the \$6.3 billion global PERS market, which is projected to grow at a CAGR of 5.8% from \$6.0 billion in 2014 to \$8.4 billion in 2020

Favorable industry trends will drive increased demand for high quality PERS products in the future

Value Proposition

LogicMark's non-monitored PERS solution offers a significant value proposition

Stable Revenue Producer

- Existing B2B and B2G contracts produce consistent revenue
- Consecutive quarters of record revenue
- Gross margins of ~70% and EBITDA margins of ~35%
- 34 cents of free cash flow for every dollar of revenue

Segments Positioned for Fast Growth

- College Students and Teachers
- Joggers, Hikers, Bikers and Climbers
- Fishermen and Hunters
- Hospitality Employees
- Real Estate Agents and Bank Tellers
- Children (under 12 years)
- Oil Workers and Construction
- Extreme Athletes
- Singles Living Alone

PRODUCT FEATURES

- Small compact design for flexible placement
- Carry options include lanyard, clip & standard bands
- Small form factor .48 mm x 40 mm x 14 mm
- Water tight design
- WiFi enabled. No cellular data plan or monthly fees
- IOS & Android apps for setup, notifications and voice
- Fall Detection
- 3-6 months between charges
- Push to talk 2 way communication
- Voice prompts to guide through system checks and operation
- Loud speaker volume to assist hearing impaired & noisy environments
- Location Services

Future Products – Cellular Wearable

Product Features

- Small form factor .45 mm x 30 mm x 10 mm
- Sleek compact design
- Carry options include lanyard, clip & standard bands
- Water tight design
- Best-in-class LPWA (low power wide area) technology
- Software definable radio (SDR)
- GPS w/A-GPS w/enhanced GNSS for indoor positioning
- IOS & Android app for setup, notifications and voice
- Buttons located on left side to avoid accidental alarm
- Fall Detection
- Bluetooth BLE 5.0
- Display 240 x 240 TFT
- Messaging, talk and 2 way
- Roll-over to emergency personnel, family members and/or call centers

Defensible Market Position

- Favorable market dynamics
- Stable revenue-producing customer base
- Differentiated product line
- Robust new product development pipeline
- Compelling growth opportunities

MediStats is LogicMark's newest home healthcare monitoring solution which focuses in providing medical data collection through a patient telemedicine portal and the measurement of metrics through medical device diagnostic kits.

This is achieved through the utilization of wireless medical device connectivity from measuring patient and hospital data of key vitals. MediStats offers patients and caregivers greater flexibility, access and cost savings through the monitoring of patients at home:

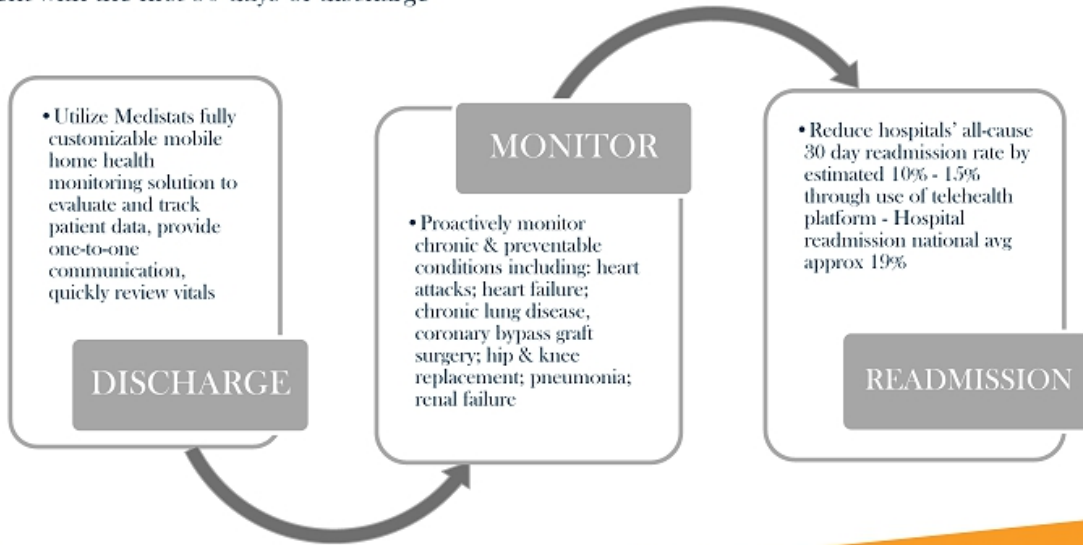

Our Chronic Care monitoring program allows patients to easily transition out of the hospital or clinic and into their homes, providing them with access to ongoing follow up from their doctors by remotely monitoring their chronic conditions, potential symptoms, unexpected emergencies and ongoing medical needs.

Through MediStats patients will enjoy improved control and personal management over the medical conditions along with increased doctor and medical staff engagement as part of their home healthcare medical device diagnosis kit.

MediStats Value Proposition

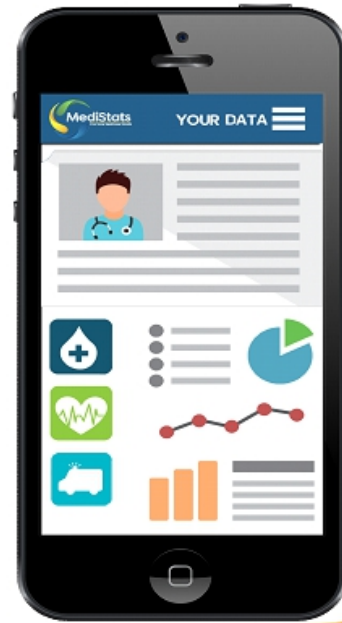

MediStats can be a key contributor to hospitals' readmission reduction programs by providing increased patient engagement with the first 30 days of discharge

MediStats Summary

- MediStats offers a workflow that aligns with the patient's recovery period, our solution automates follow-up reminders, connecting patients and providers over a secure video call, and allows for patient Q&A
- MediStats can reduce the cost and readmission into the hospital within the first 30 days, providing an estimated 10% - 15% reduction in all-cause readmissions over 12 months
- MediStats shortens the distance between patients and providers, essentially bringing back the house call by providing proactive patient monitoring upon discharge
- MediStats is a telehealth solution that employs a 4G mobile or wireless tablet-based system that collects patient vital signs via wireless peripherals
- MediStats is a cloud based software that has no expensive equipment or hardware to install.
